SERVICE RECORD 6

INTRODUCTION

Maintaining Your Emira

To ensure the best performance, condition and dependability of your Emira, it should be regularly maintained by an authorised Lotus Retailer.

Between service intervals it is recommended that you also regularly check:

■ **Engine oil level** ■ **Coolant level** ■ **Brake fluid level** ■ **Windscreen washer fluid level** ■ **Park Assistance System sensors and camera for dirt, snow or ice** ■ **Tyre pressures and general condition/tread depth** ■ **Wiper blade condition** ■ **Exterior lights and horn.**

To ensure that you continue to benefit from your Lotus Warranty you must have your Emira serviced in accordance with the Lotus Service Schedule.

Service Booklet

There is a section in this booklet for your Lotus Retailer to update your Emira service record, so it is recommended to bring this booklet with you anytime you take your Emira to an authorised Lotus Retail Outlet for any maintenance or repairs. This booklet should be given to the new owner if you sell your Emira.

Servicing Intervals

For normal use, your Emira service intervals are 10,000 miles or 12 months after the previous service; whichever first occurs. A service reminder message is shown in the driver's display when your Emira service is due. This will be reset by your Lotus Retailer as part of your vehicle service.

Every service must be completed within one month or 1,000 miles of the specified service interval.

For special operating conditions such as driving in extremely dusty conditions or track use etc, then additional servicing/maintenance may be required, contact your dealer for further information.

For details of specific items replaced, fluids changed and operations carried out during servicing, please contact any authorised Lotus Retailer.

Servicing Costs

Lotus servicing costs could vary based on the Emira model, the service carried out, additional work required or the use of loan cars etc, it is recommended to ask your Lotus Retailer for a quotation prior to servicing.

Recommended Fluids & Lubricants

Please refer to the 'Recommended Lubricants' section of the main owner's handbook for a complete listing of capacities, standards and approved products.
